**OBJECTIVE:** To obtain a career as a Junior Software Developer, where I can fully utilize my software development skills and computer knowledge.

---

## TECHNICAL SKILLS:

- **Languages:** C#, JAVA, JavaScript, HTML5/XML, CSS3, SQL, PL/SQL, TypeScript
- **Framework & Library:** ASP.NET MVC CORE 2.0, React, Node.js, Express.js, jQuery, Bootstrap
- **Database:** Oracle, SQL Server, MySQL, MongoDB, PostgreSQL
- **Server:** MS Azure, AWS, IIS, Linux
- **Software:** Visual Studio, VS Code, Atom, Eclipse, IntelliJ, GIT, Android Studio, Selenium

## SOFTWARE PROJECTS:

- **Social Activity Platform (WhatSAP)**
  - Built a web application using **ASP.NET CORE 2.0** that allows end-users to interact with social activity providers
  - Deployed the final application to **Azure Cloud Computing Platform**
  - Managed source code and branches using **GIT** to control versions and conflicts
  - Worked as a leading back-end developer in a project team of 10 members using **Agile** methodology
- **Marketplace Service API**
  - Implemented APIs that provided clients with optimal prices based on data interfacing with different stores
  - Developed an asynchronous **RESTful API** with **ASP.NET CORE 2.0** and provided documentation with Swagger framework
  - Published in **Amazon Web Service** with RDS and managed an API with APIgee management platform
- **Language Learning Platform**
  - Built a language learning app using **ASP.NET CORE 2.0** with Razor view that provided various languages with videos
  - Published in **Amazon Web Service** with RDS and S3
- **Bullet Hell Shooting Game (The Galaxy of the Guardians)**
  - Created 2D top-down shooting game with 3 stages and different levels
  - Written in **TypeScript** with **CreateJS** libraries working as the lead developer

## WORK EXPERIENCE:

- **IT Support Technician** May 2018 – Present  
Sprott Shaw Language College, Toronto, ON
  - Routinely inspected all supported hardware, identifying all potential problems and repairing them
  - Set up equipment for employee use, performing or ensuring proper installation of appropriate software
  - Diagnosed and repaired faulty network components and network connections for 50+ staffs and students
- **Office Assistant** Jan 2018 – Sep 2018  
Centennial College, Toronto, ON
  - Assisted with administrative duties such as timetable follow-up, documentation and collecting data from students to enhance student experience
  - Worked as a team member in the international department responsible for students from South Asia & the Middle East
  - Effectively communicated with new students and college staff to fulfil student needs and requirements for entering the college

## EDUCATION:

- **Software Engineering Technology (Advanced Diploma)** Jan 2017 – Present  
Centennial College, Toronto, ON
  - Overall GPA 3.99 / 4.5
- **Statistics** Mar 2011 – Jul 2015  
Chungnam National University, Daejeon, Korea
  - Completed 80 credits toward Bachelor of Science
